Job title: Front End Developer
Responsibilities:

- ✓ We are looking for a Front-End Web Developer who is motivated to combine the art of design with the art of programming
- ✓ Translation of the UI/UX design wire frames to actual code that will produce visual elements of the application
- ✓ Will work with the UI/UX designer and bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works
- ✓ Develop new user-facing features
- ✓ Build reusable code and libraries for future use
- ✓ Ensure the technical feasibility of UI/UX designs
- ✓ Optimize application for maximum speed and scalability
- ✓ Assure that all user input is validated before submitting to back-end
  Collaborate with other team members.
